Stainless steel outer shell construction round construction with stainless steel, rounded edges, Deep-drawn bathtub

2 Stainless steel washing arms
upper and lower arms with stainless steel, separated for washing and rinsing, triple upper arm

3 LED Display smartScreen, a large color graphic display showing the washing progress

Double pump
unique two-way DuoFlow pump

Detergent dispensers two detergent and rinse aid dispensers

Double filter system
the chamber filter and the waste filter together with the
ArchiMedes system provide a discharge system with
increased water purification efficiency

Energy saving energy saving system due to lowering the temperature of the boiler

Protection of fragile dishes
softstart system for gradual start of washing programs to protect fragile dishes

Double shell constructionstainless steel construction with insulated double jacket

Fast heating

performance management allows the current running of the boiler and basins body

the open system of the boiler rinse, in cooperation with the rinse pump, ensures a constant pressure and temperature of the rinse

Possibility of recovery

Air break tank

saving up to 40% of boiler energy improves the comfort environment of the workplace environment without steam saves water
