1

Aluminum alloy body

- robustness
- purity
 - long service life
 - very easy to clean

2

Worm gear

- long service life
 - thanks to the worm gear and the more powerful motor, it can be used de facto continuously

3

Anti-stick treatment of the knife including anti-stick grooves

- less adhesion of the sliced food to the knife
 - thanks to the blade design, even softer foods can be cut, saving costs and time

4

Fan-cooled motor with overheating protection

- greater capacity of processed food
- long life
 - can work longer thanks to cooling
 - less risk of overheating and engine damage due to cooling

5

Finger protection

- high operational safety
 - the finger guard minimises the risk of accidents at work

6

Spring displacement of the raw material

- easier handling
 - the spring ensures a smoother movement of the food towards the knife and thus increases the comfort of the operator

7

Large blade diameter

- variability of use
 - thanks to the large diameter of the knife, even large pieces of food can be processed
