Product benefits

ModelSAP CodeSDBD 1011 GAMA group of articles - web		SAP Code	00011597 Convection machines	
1	Direct injection steam generation by spraying elements directly in the cham		8 Premix burner the only burner with a turbo pre -mixing gas with air on the market the structure of the burner to V which prevents backfill and banging This design saves 30 % of gas compared to conventional burners	
2	Digital display simple multi-line backlit displa cooking phases	ay of 99 programs with 9		
3	Weather system patented device for measuring steam saturation in real time and in steam mode, the only one on the market		9	Automatic washing integrated chamber washing system possibility to use liquid and tablet detergents option to use vinegar as a rinse agent the system simultaneously descales the micro-boiler
4	Steam tuner a control element that enables setting the exact saturation of steam in the cooking chamber during the cooking process		10	Self -supporting shower drum winch integrated in the body of the kettle the shower is inaccessible when the door is closed
5	Pass-through door the door is also built into the back of the combi oven, while full control is retained from the side of the cook enables the distribution of the delivery area and the kitchen		11	Six-speed fan, reversible with automatic calculation of direction change in cooperation with the symbiotic system, it ensures perfect steam distribution without losing its richness its operation is controlled by the program or manually
6	Adaptation for roasting of the chamber of the convection baked fat, the machine is equi collecting fat	oven is designed to collect	12	External temperature probe temperature probe located outside the cooking area choice of single or multipoint probe or vacuum probe
7	A kit of two machines on top of each other connection kit allowing two machines to be placed on top of each other		13	Longitudinal insertion to GN penetration placed on the "depth" of the machine exchangeable for 600x400 sheet metal inserts
connects the connections of the lower combi oven		rts, wastes and ventilation	14	USB downloading service reports software upgrade recipe playback
